**O**ur building experience with Chicaugon Lake Builders was wonderful from beginning to end. Orv and his crew are truly remarkable craftsmen, always professional, lots of fun and hardworking every step of the way. Each crew member has his own special talent, and watching their creative process unfold as a team was really fascinating and enjoyable to watch and to participate in. We were always kept informed of details and felt truly part of the team.

We had never before built a house and entered into the project with some anxiety and trepidation based on other people's less than happy building experiences with other construction companies. We were delighted to discover that every idea, opinion and desire we had was met with respect, validation and a sincere commitment to bring our dreams to fruition. Every detail, from the paperwork to the last nail hammered in was done with accuracy, timeliness, thoroughness, and perfection.

We are very proud of our home. It is everything and more than we dreamed of and our relationship with the entire team at Chicaugon Lake Builders continues today as one of great respect and friendship. We can't begin to express the depth of our gratitude and praise for the excellent work done by everyone on the team.
